Balanced and smooth

(↔) Smooth curves

□ Front view with square lines

↗ Can be wall mounted

🏠 Compatible with BJC Nexus Smart Home

⊕ Many different functions

💧 IP44 Solutions

↔ It adapts to any decoration needs

“ Its balanced and soft design reflects your personality and complements your home décor perfectly. The choice is yours. ”

- Wireless. Installed and extended without the need for building work.
- Control via a smartphone, tablet, the cloud, from both inside and outside the home.
- **Made in Europe** according to strict quality standards and European regulations, allowing us to provide a 5-year warranty.
- Compatible with Google Nest and Alexa voice assistants.
- Control it using the free BJC Nexus app, as well as the Google Home and Amazon Alexa apps.
- Can be integrated with Home Assistant.
- Cloud located on **servers in Europe** with European cybersecurity and data protection standards.
- You can combine the modules with any model in the BJC series to get your home connected.

Combine the modules with the Iris series to get your home connected.

BJC Nexus Cloud located in Europe

Download the BJC Nexus app

“

The BJC Nexus system provides full, easy control of your home from your mobile device using the dedicated app, as well as through compatible voice assistants such as Alexa or Google Home.

Iris

Accuracy and reliability

Socket outlets with the speed and safety of the STAI screw-terminal wiring system.

MEC 18 switches

“ The high resistance of urea to wear and tear, coupled with the fact that BJC mechanisms effortlessly meet or exceed current regulatory requirements for contact operations, ensures that BJC series products have an extended useful life.

Iris

Component quality

The high quality of all the components, such as the silver contacts with the highest purity, enables us to offer 16 A in each one-way switch mechanism. We can also guarantee that they will far exceed the minimum changeover requirements required by current regulations before we take them to market.

“ *Designed for comfortable, quick and safe installation, each mechanism contains a multitude of precisely joined parts to ensure precise tilting and high switching power with the slightest touch.* ”

MEC18

One single mechanism is suitable for all five luxury BJC series: Iris, Iris Plus, Mega, Style and Miro.

Iris Iris Plus Mega Style Miro

- Our 16 A MEC18 one-way and two-way switches allow for a large number of applications using the same mechanism, reducing the number of items and references you need to stock.
- The galvanised steel fixing frames are treated to prevent corrosion and ensure durable installation components.
- Fixing frames with top and bottom profiles make assembly easier and ensure that the mechanisms in multiple frames are correctly aligned.

Iris

Antibacterial solutions

Thanks to their antibacterial finish, Iris and Iris Plus impede the survival and transmission of microorganisms. This makes them the perfect choice for environments in which microorganisms thrive and the risk of transmission is high, such as hospitals, care homes, residential homes, care centres and communal areas in offices or homeowners' associations.

“

It impedes the survival and transmission of microorganisms

Iris

Many different functions

Smart Home

Combining BJC Nexus modules to get your home connected.

1 RJ and fibre-optic sockets

This allows the fibre-optic cable to reach the required location and enables the router to be easily connected.

2 Dimmers

Dimmers are the perfect way to create an atmosphere in rooms by adjusting the lighting levels to the desired intensity.

3 IP44 protection

In all colours and frames. Same mechanism and frame as the IP20.

4 Motion detector

This practical and convenient safety solution also cuts costs.

White

Odyssey Gold

Chocolate

Mercury Aluminium

Neptune Steel

5 Centralised blind control

Allows all blinds to be raised or lowered with a single push-button, individually or together.

6 Dual USB chargers

USB Type A and C with fast charging and Power Delivery.

7 LED indicator light

They allow you to illuminate: stairs, waiting rooms, interiors, corridors and calls.

8 Multimedia

HDMI, VGA, RJ45, stereo, etc. connectors for a clean and cable-free installation. Ideal for homes and businesses.

9 Thermostats

Our thermostats can be used to control and adjust the temperature in each room.

“

The Iris series offers a wide range of functions to meet today's needs. These include light intensity dimmers, sound controllers, and mechanisms for raising and lowering blinds.

Iris IP44

Now also for outdoor use

- ▷ In all colours and frames.
- ▷ Schuko® socket outlet, single and double mechanism, TV and RJ.
- ▷ For all colours in the range and multi-gang frames (up to 5 gangs).
